

RFB2

RAPID FLASH BEACON

Rectangular Alternative To Traditional Circular Beacon

Our RFB2 provides high visibility to motorists approaching and traveling through pedestrian crosswalks. The RFB2 meets Manual on Uniform Traffic Control Devices requirements for the two/three-flash sequence. The RFB2 features a flex-mount Pedestrian Confirmation Light, vandal-proof stainless steel fasteners, a black powder-coated steel enclosure and has multiple time switch and communications options.

*Available in Solar
or AC power solutions.*

Pedestrian Safety Since 1987
